

On behalf of President Robert C. Robbins, we would like to share the most current information regarding plans to renovate Park Student Union to create a UA Global Center.

We are committed to finding a permanent home for Arizona Student Media that is appropriate for the vital services our student journalists provide. We will not move forward with plans for the UA Global Center until we find equitable and fair space for the Daily Wildcat, KAMP Student Radio, and UATV. This is our first priority.

We have been in conversations with the Director of Arizona Student Media and colleagues in the Planning, Design, and Construction Department to identify space possibilities based upon the Director's information, i.e. floorplans, square footage, and central campus locations. We are working collaboratively to find a solution that meets the needs of the students and staff of Arizona Student Media.

As we continue the design and planning phase for the UA Global Center, we welcome input from the UA community, particularly from students and alumni of Arizona Student Media. We will work tirelessly in the coming days to ensure Arizona Student Media has an equitable space.

We look forward to finding a solution that serves everyone.

Sincerely,

Jeffrey Goldberg  
Interim Senior Vice President for Academic Affairs and Provost

Kendal Washington White  
Vice Provost for Campus Life  
Dean of Students

Brent White  
Vice Provost for Global Affairs  
Dean, Global Campuses and International Education
