# october 7 WAR IN GAZA

On October 7, Hamas, a Palestinian separatist group, made numerous land invasions over Israel's eastern border. Israel declared war on Hamas a day later, on October 8.

Photo by Yasser Qudus/Middle East Images/AP Photo via Getty Images/TNS

On Oct. 7, Hamas militants launched across-border attack on Israel. Hamas, a militant group, has controlled the Gaza Strip since 2007. The day of the attack, Israel declared war on Hamas.

"In my opinion, it isn't a war, considering this has been going on for 75 years. The first day, I woke up and I saw what Palestine did, and I was happy because they're finally defending themselves. The fact that the whole world only saw that instead of focusing on the past ... makes me sad because it's my home country. It's important [to speak up] because ... thousands of people are dying every day. Just be aware and educate yourself!"

"I think it's just important that we try and come to a solution, before things get too escalated to a point of no return. With the recent events between Israel and Iran, sometimes it's hard to avoid escalation, but it's important. Right now, we have to try and not let the situation with Iran evolve into a much larger issue, because then that could spread elsewhere!"
